## Experience

### Freelancer – MERN Stack Developer

Project: Artistry – AI-Powered Interior Design Platform 🔄

Jul 2024 – Present — Remote

- Work in a Team as a frontend developer.
- Developing a full-stack AI interior design platform that transforms real room photos into professional-ready visualizations, reducing manual design effort.
- Built a microservices architecture using React (frontend) and FastAPI (backend) and Integrated multiple state-of-the-art models.

## Projects

### Startup Genie – AI Assistant for Business 🔄

- Startup Genie is an AI-powered platform that helps entrepreneurs transform raw ideas into structured, investor-ready startup plans.
- It provides tools like business model canvas, market analysis, financial projections, and pitch deck generation through an interactive AI assistant.

### Lifeline-Network 🔄

- Developed a full-stack web application using Next.js (TypeScript) for the frontend and Express.js + SQLite for the backend to provide real-time hospital/ambulance coordination tools..

### Personal Portfolio Website

- Built a fully responsive personal portfolio using React and Tailwind CSS to showcase projects, skills, and experience. Implemented smooth UI/UX, reusable components, and GitHub integration for live project previews.

## Education

### K.R. Mangalam University, Gurgaon

Bachelor of Technology – Computer Science and Engineering

Aug 2024 – Present

### R.S Memorial Public School

Intermediate Education (12th Grade, Science Non-Medical)

Apr 2023 – Mar 2024

## Languages

- English – Fluent
- Hindi – Native
